Think Vertical, Think Modula

PICKING SOLUTIONS

HIGH PRODUCTIVITY PICKING SOLUTIONS

PUT TO LIGHT

Put to Light solutions are equipped with displays that visually guide the operator to the locations where the articles of each order are to be deposited (put).

Each location or container assigned to an order is in fact associated with a light display. Sorting is done by article and once identified, the displays show the operator the container in which he must deposit it and the quantity required for each order.

The Modula WMS software that manages the Put to Light system allows the implementation of different picking strategies, including batch picking or multi-order.

DISPLAY FEATURES

- 7 colour validation button
- 128x32 pixels OLED graphic display
- Aluminium support structure

PICKING STATION

It is a fixed, complete and modular picking station with various picking positions.

It consists of shelves for supporting the containers and a number of Put to Light displays with corresponding power supply.

The modules can be coupled if it is necessary to process many orders simultaneously.

Intermediate modules are available for the installation of monitors, label printers, barcode readers or other accessories.

The system must be equipped with Modula WMS software.

PICKING CART

It is a mobile, complete and modular picking station with various picking positions.

It consists of a painted steel trolley equipped with 4 pivoting wheels for easy manoeuvrability, shelves for supporting the containers, a Put to Light display with its controller, power/backup batteries and a Wi-Fi system for wireless connectivity.

The system works integrated with the Modula WMS software.

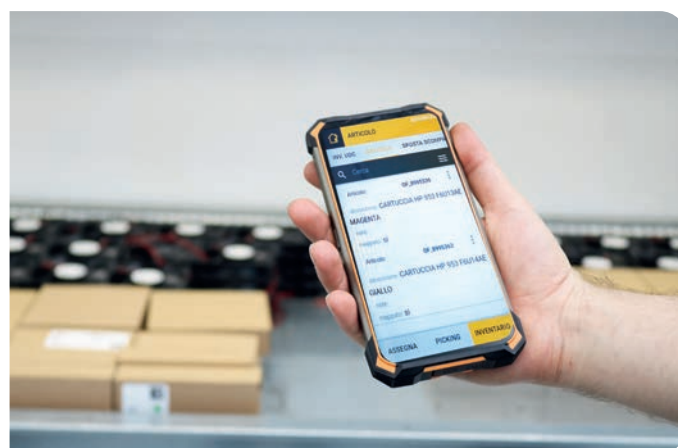

MOBILE PICKING APP

Mobile Picking app for Android devices, allows you to operate in complete mobility on all manual warehouses managed via Modula WMS.

The **intuitive user interface** allows you to perform pick and deposit operations with just a few clicks. If necessary, you can use the terminal's barcode reader or camera.

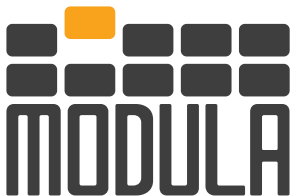

The application can be installed on any Android device from version 8 to 11.

MODULA WORLD

Modula is present in 5 continents with dealers and branches located in more than 30 countries
